PERSONAL PROFILE

Cherif Mikhail

Computer Science Student at AUC

I am a Computer Science student at The American University in Cairo. I am interested in web systems, databases, automation, and building simple useful projects that solve real problems.

ABOUT ME

Education

The American University in Cairo

Bachelor's Degree in Computer Science

BRS School

High School Education

Experience

AXA Internship

One-month internship in August 2025.

ArpuPlus Internship

One-month internship in August 2026.

Certifications and Achievements

SQL Fundamentals Certificate

Completed introductory training covering database tables, SELECT queries, joins, and basic data organization.

AUC Computer Science Coursework

Completed coursework and assignments involving programming logic, problem solving, databases, and web systems.

Web Development Course Project

Created and published a personal CV website using semantic HTML, a separate CSS file, and responsive page styling.

Skills

C++ | SQL | n8n | HTML | CSS | JavaScript | REST APIs | GitHub | Problem Solving | Database Design

Projects

Featured projects

Student Course Planner

Designed a simple course planning page to help students organize current courses, credit hours, and weekly study priorities.

Library Database System

Built a small SQL database for books, students, borrowing records, and search queries using clear table relationships.

Internship Task Automation

Created an n8n workflow concept for tracking form submissions, sending email updates, and saving records automatically.
